

I'm a dedicated, flexible person with a good work ethic, and a proactive approach to learning. I aim to be a clear communicator who works well with people from a range of backgrounds. I am good at navigating high-stress and/or chaotic environments. Driven by curiosity, I'm always interested in learning new skills, exploring new ideas, and finding different ways to solve a problem. I hold myself to a high standard of work, and always aim to deliver excellence in all I do. While I may not be the most natural born leader, I'm always willing to step up and try my best to help when needed; whether that be boosting moral, or stepping in more seriously.

Experience

Summer Intern

Atomised Ltd, Dunfermline

2025

Atomised are the company behind the popular train ticket selling website, traintickets.com. During my time there, I was tasked with assisting the development of their soon-to-come mobile app. Throughout this process, I developed my communication and team working skills, working closely with my superiors to create something that reflected their brand and displayed company standards. In addition, I also developed my design and programming skills, notably in the Swift programming language.

Volunteer Barista and Wait Staff

Zac's Café, Dunfermline

2024-2025

Last year, I spent a lot of time volunteering at Zac's Café at Viewfield Baptist Church in Dunfermline. During my time there, I got the opportunity to develop basic barista skills whilst working as a part of the close-knit kitchen team. Additionally, I spent a large chunk of my time there working on the waiting team, taking orders and serving customers in a fast paced environment. It was a really great opportunity to develop team work and time management skills with a diverse group of volunteers.
